# SUPPLEMENTAL PORTER STAFFING

**ABOUT US:** Since 2007, Pro Squared Janitorial Services has been helping businesses maximize the value of their facilities. As a locally owned and operated business, personalized customer service stands as the backbone of our operations, and our more than 94% client retention rate is a testament to that.

**PROBLEM:** One of our clients reached out to us because they needed last-minute porter staffing and supplemental cleaning hours before and after an event. The event included hosting a group of 500 children.

**SOLUTION:** With only eight hours' notice, we contacted our crews. Even on short notice, they deep cleaned the property before guests arrived, staffed the event, and cleaned up afterward.

**RESULTS:** As a result of our services, the client made an excellent impression on their guests and provided a safe, clean space for 500 kids to play. After the event, we helped them resume normal operations.

## HAPPY CLIENTS

The client commended us for the work our cleaners did, especially since we were able to deliver results on such short notice.
